

Sweetharmony's Health & Genetic Guarantee

Our Persians/Exotic Shorthair cats/kittens are placed with a contract only, to protect all involved.

Cats placed in pet / companion homes, are spayed / neutered prior to going to their new homes. All of our retired cats are spayed / neutered before they are placed in loving homes. If you are not a shady person, you will have no problem with a contract.

Breeding rights are only given to qualified Breeders who are currently registered as a legitimate breeder/cattery in good standing with the registry they are affiliated with. We do not support or encourage "backyard breeding" due to health issues that are contributed to the breed by doing so. You also have no idea the problems that you will encounter in all aspects of raising a litter and you can be easily wiped out - which is a huge financial and emotional loss. Only qualified, educated, registered Breeders should be breeding purebreds to preserve, contribute to, and protect the breed. Those who aspire to be a "Breeder" are certainly welcome to inquire - however, you must go about it the correct way.

Pet Quality:

A pet quality kitten is one that will make a great companion for any owner, and it is as healthy and cute as its' litter mates. A pet quality cat/kitten may have one or more physical characteristics that are not desirable in a show-quality cat as defined by the FIFe/CFA Persian breed standard. This could mean that the kitten does not have a "flat" face or some other similar "fault". Pet quality kittens will be spayed/neutered prior to being placed in their new homes or have to be spayed /neutered latest with the age of 1 year. Pet quality kittens are priced from €300 - €1,500 depending on quality, color, and availability.

Please review our Pet Quality Contract.

Breeder Quality:

A breeder quality cat/kitten is one that may have one or more disqualifying features as defined by the FIFe/CFA. A breeder quality cat/kitten has the potential to produce better than itself (i.e., show quality). We do not guarantee that this kitten (or cat) will produce a show quality kitten because proper grooming, care, and presentation are always very important factors in winning in the show ring. We do not guarantee any winning titles. Please contact us directly for prices and availability.

Please review the Breeder Quality Contract.

Show Quality:

A show quality cat/kitten will have the necessary characteristics as defined in the FIFe/CFA Persian breed standard to attain at least a Champion title and may very well attain a Grand Champion title with proper grooming and presentation. Again, as with any show animal, proper grooming, care, and presentation are the deciding factors in winning in the show ring. We do not guarantee any winning titles. When you purchase a show quality cat or kitten from us, Sweetharmonys Persians & Exotic Shorthair hopes that you will provide it with the proper grooming and care and show it to its fullest potential.
